

THE RAG PLACE, INC.

HOLLYWOOD'S PREMIER SOURCE FOR MOTION PICTURE TECHNICAL FABRICS

BOUNCES

ULTRABOUNCE®

Developed and introduced to the motion picture industry by The Rag Place. This highly versatile fabric is lightweight and waterproof. The white side provides a soft, even bounce without any hot spot, and the reverse matte black side can be used for negative fill or masking. Don't be fooled by inferior products. TRP Ultrabounce's,® robust, nylon, high heat durability sets the standard for Hollywood, and worldwide applications. Available in 60" (1.52m) width as a raw fabric, or made to order finished rag in any size for sale, or for rental from a huge variety of stock and custom sizes.

Standard Size Chart

MUSLIN

Ideal for cycloramas, large painted backings, and ceiling flats, it is commonly used as a lighting medium. It may be used both for bouncing, where it gives off a soft light without any hot spot, or as a very soft diffusion material. Our muslin is offered in "Bleached" and "Unbleached" (natural) and is available in a variety of seamless widths; 118", 144", 240", 396", and 474". (3m, 3.66m, 6.10m, 10.06m, 12.04m widths.) as raw fabric, or made to order finished rag in any size for sale, or for rental from a huge variety of stock and custom sizes.

For color Muslins, please refer to "Solids & Backings".

POLYMUSLIN

Our Medium weight Polymuslin has the look and weight of cotton muslin without the stiffness. This fabric works well for drops, cycloramas, and butterflies. The polyester fabric will wear well and tolerate high humidity conditions. Available in 118", 165", 204", 240", made to order in any size for sales or rental from our large stock.

GRIFFLON

Carrying a heavier gauge than other suppliers to insure satisfaction and durability. Our fiber reinforced black / white Griffalon features a tough, shiny dual surface, with bright white for brilliant reflected bounce light on one side, and solid black on the reverse. A clear fiber reinforced Griffalon is also available. Fabric stocked in 6', 8', 12', 24', and 40' widths, custom widths also available. (1.82m, 2.43m, 3.65m, 7.31m, and 9.14m widths) as a raw fabric, or made to order finished rag in any size for sale, or for rental from a huge variety of stock and custom sizes.

WINDBOUNCE

This robust vinyl coated white net is perfect for bouncing light in windy conditions. With a net like finish that leaves $\pm 60\%$ bounce surface, allowing wind to pass through without disturbing the lighting. This fabric also cleans up easy! Available in 62" (157.48cm) raw fabric, or made to order in any size for sale, or rental from our large stock.

20'x 20' (6.09m x 6.09m)
20' X 30' (6.09 x 9.14m)

Any size available upon request

WHITE BLACKOUT

Yes, this sounds like a contradiction in terms. However, this bounce material is opaque and may also be used for "blacking out". This economical, coated material is offered in 54" wide (1.37m) and provides a soft, even bounce. Made to order finished rag in any size for sale, or for rental from a huge variety of stock and custom sizes.
