DIFFUSIONS

GRID CLOTH

Grid cloth comes in Full, Half (Lite) and Quarter varieties. These extremely durable yet lightweight fabric is available in both "Silent" and Noisy, the most popular by far being the "Silent" type, ideal for outdoor filming where wind might create sound issues. The Full Grid come in 60" (1.52m) rolls, the Half in 65" (1.65m) and the Quarter comes in 72" (1.82m) as a raw fabric, or made to order finished rag in any size for sale, or for rental from a huge variety of stock and custom sizes.

Black Full Grid and and Charcoal Vintage Grid, see listing in ["Solids & Backings"](#).

SILKS

China Silk: Often referred to as "Half Silk" this lightweight, slightly translucent natural silk fabric is used for medium diffusion. This silk drapes beautifully and is offered in warm white (54" width/1.37m) and black (45" wide/1.14m) as a raw fabric, or made to order finished rag in any size for sale, or for rental from a huge variety of stock and custom sizes.

8'x 8' (2.43m x 2.43m)
12'x 12' (3.65m x 3.65m)
12'x 20' (3.65m x 6.09m)
20'x 20' (6.09m x 6.09m)

Any size available upon request

"Primary Colors"
12 x 12 Polysilk in lightweight frame
carried on 150" walk & talk
12 Oaks, Louisiana

Polysilk: Known as Full Silk in the film business. This man-made fabric is denser and softens and spreads the light more than the "China". Black and white Polysilk are available in 60" (1.52m), and white is also available in 126" (3.2m).

Quarter Silk: This lightweight fabric offers a very thin diffusion, just to knock the edge off. Available in 118" (2.99m) widths in black and white.

MUSLINS

Ideal for cycloramas, large painted backings and ceiling flats, it is commonly used as a lighting medium. It may be used both for bouncing where it gives off a soft light without any hot spot, or, as a very soft diffusion material. Our heavyweight muslin is offered in "Bleached" and "Unbleached" (natural) and is available in a variety of seamless widths; 9' (2.74m), 12' (3.65m), 20' (6.09m), 33' (10.05m) and 39.5' (12.03m) as a raw fabric, or made to order finished rag in any size for sale, or for rental from a huge variety of stock and custom sizes.

HALF SOFT FROST/FULL SOFT FROST/HILITE

Full Soft Frost: This white vinyl product offers a light soft glow and holds its diffusion properties even when wet, making it perfect for wet weather applications. We carry the widest width available, making seamless 8 X 8 butterflies possible. In 96"(2.44m) wide as rolled fabric, or finished rags in any size for sale, or for rental from a large variety of stock and custom sizes.

Half Soft Frost: This frosted vinyl product offers a unique scattering of light and allows more light to transmit, minimizing light loss. This lighter density diffusion works great with LED fixtures. We carry the widest width available, making seamless 8 X 8 butterflies possible. Available 96"(2.44m) by the yard. Finished rags in any size for sale, or for rental from a large variety of stock and custom sizes.

Hi Lite: This product is heavier than the Soft Frosts, and offers higher density diffusion. It is quiet in windy environments and is perfect for use on camera cars. We carry the widest width available, making seamless 8 X 8 butterflies possible. Available in 96" (2.44m) wide as rolled fabric, or finished rags in any size for sale, or for rental from a large variety of stock and custom sizes.
