## TRUSS/FRAMES & HARDWARE

The Rag Place Inc. stocks Triangular Truss sections in two engineered weights and we have schematics for a large variety of sizes for both conventional and "wrapped" frames. We carry several different types of truss ears to offer a variety of stand connections.

**12" Triangular Truss:** This lightweight triangular truss is similar in weight to "Antenna" truss, but instead of a spigot our truss has been engineered for horizontal use with plate and bolt connections. We have schematics for a large variety of sizes for both conventional and "wrapped" frames.
